

## HOW TO SUBMIT AN ABSTRACT AND PAPER ON ConfTool

### General

The ConfTool System is used for handling paper submissions, the review process, and participant registration. You have to create a user account in order to use any facilities of the system

### Create a ConfTool User Account

To **create a user account**, go to the ConfTool login page

<https://www.conftool.net/aanzca2024/> and follow the "**Register new**" link under "First time here?". After filling in the required fields of the Web form (marked by asterisk '\*'), a confirmation e-mail will be sent to you with your account details. Please provide a valid name, address, and email address, since these will be used later for sending you relevant information about your submission and the conference.

You do **not** have to create a new user account for each paper you submit. The **same user account can be used for multiple submissions and for participant registration**. If you are already a registered user, please use that account for your submissions, too.

### Login to the ConfTool System

After having obtained a user account, you can **log in with your username and password** under "**Registered Users**". If you have **forgotten your password**, a new one can be obtained through the "Forgotten your password?" link. Depending on the phase of the submission, review, and registration process, you will see different options after logging in. If you have already submitted papers, you can always access the list with your submissions and see their status. For all subsequent operations you need a user account and will have to log in first.

### Submit a New Contribution

Select "**Your Submissions**" (see image 1) and then **please select the stream for which you wish your submission to be considered** (see image 2)
